What is OBI?

1. OBI stands for Chinese Oracle Bone Inscriptions -- the earliest known Chinese characters engraved on bones (turtle plastrons/carapace (70%), ox bones (29%), human/other bones(<1%), etc).

OBI in China is called Turtle Tone Inscription (TBI or JGW).

A typical turtle shell

What is OBI?

2. Radiocarbon (C14) dated OBI to about 1500~1300 BC or 1300~1000 BC (~ Moses time 1400 BC, Torah compiled 500 BC)
3. OBI was first discovered by accident in 1898 (~ 1946-8 Dead sea scroll discovery)

4. OBI is unearthed in Anyang village of China (similar latitude and geographical environment to Israel.)

What is OBI?

4. Today there are more than **130,096** pieces of OBs distributed in various institutes or museums over China (60%), Taiwan (22%), Japan (6%), Canada (5%), Britain (2%), American (1%), etc. About **53,834** pieces of them contains total about **611,015** to 1.2 M characters. ([refer](#))

The size of Chinese Bible in WenLi (1919 version) has **673,449** characters with **3889** distincts, which is 28.6% less than plain text of CUV (1919 version) for 930,198 characters with 3016 distincts. The King James Authorized Bible has 783,137 words.

About **6,000** identical characters were collected into the computer system, and nearly **1,000~2,000** of them have been recognized. Less than **0.1%** of OBs are arguable for their authentication. The quantity and authentication of published data are qualified enough for full scale theory analysis.

What is OBI?

5. OBI and Chinese language are essentially totally different. OBI and the language of its users are two different things. OBI belongs to part of ritual system, not used as the language people communicate with each others. OBI was designed and used for ritual purpose by people with their own language. (similar to computer javascript and its users)

Archeological documented evidence show that Chinese language started around 500~400 BC and became unified form after Qin dynasty in 221 BC. Chinese writing system was developed based upon the bronzes characters that inherited from OBI after OBI was totally lost. No OBI information can be found in Chinese historical books.

Essentially Chinese language is a human language related to OBI that is for sacred religious purpose. The misuses of OBI make the Chinese language the most difficult language in the world. While Chinese language can help to recognize OBI characters, it also misleads people to correctly understand OBI. Indeed, OBI is easier for alphabet language users to recognize.

What is OBI?

6. OBI was all unearthed in Anyang village. Archeological excavation shows that OBI is a particular kind of scripts used in a particular place by a particular group of people in a particular history period for a particular religious purpose.

OBI represents a particular independent fleeting culture in human history. OBI culture has significantly influenced its surroundings in the eastern Asia but is completely different from its surrounding cultures. OBI designers and the application are totally different.

OBI does not belong to any particular state or culture of the world today. Any people can learn it and use it and own it regardless who is Chinese or not, like the computer javascripts.

Also notice that OBI inventor and OBI users are likely two different groups that can belong to different cultures.

Those who can understand the painting of DaVinci, can understand the OBI. Examples:

[OBI-1600](#) | [Chen6000](#) | [DaVinci's Paintings.](#), | [Paintings of Good.](#), | [Chinese/Egyptian/Bronze\(Good\).](#)

9. The earliest concept of dragon in Chinese culture can be found in OBI. Exploring OBI is not a study but a spiritual warfare. OBI is a battlefield between the darkness and the light. The mysterious OBI is the nest where evil parasites.

6. OBI is the foundation of Chinese, Japan and Korea languages. The world view of those languages speakers are influenced directly or indirectly by secret power of OBI.

7. OBI based culture is influencing the Christian and western world through food, goods, tech and politics to turn away to the Gospel.

Why to study OBI?

1. OBI is still an unresolved mystery in the world.

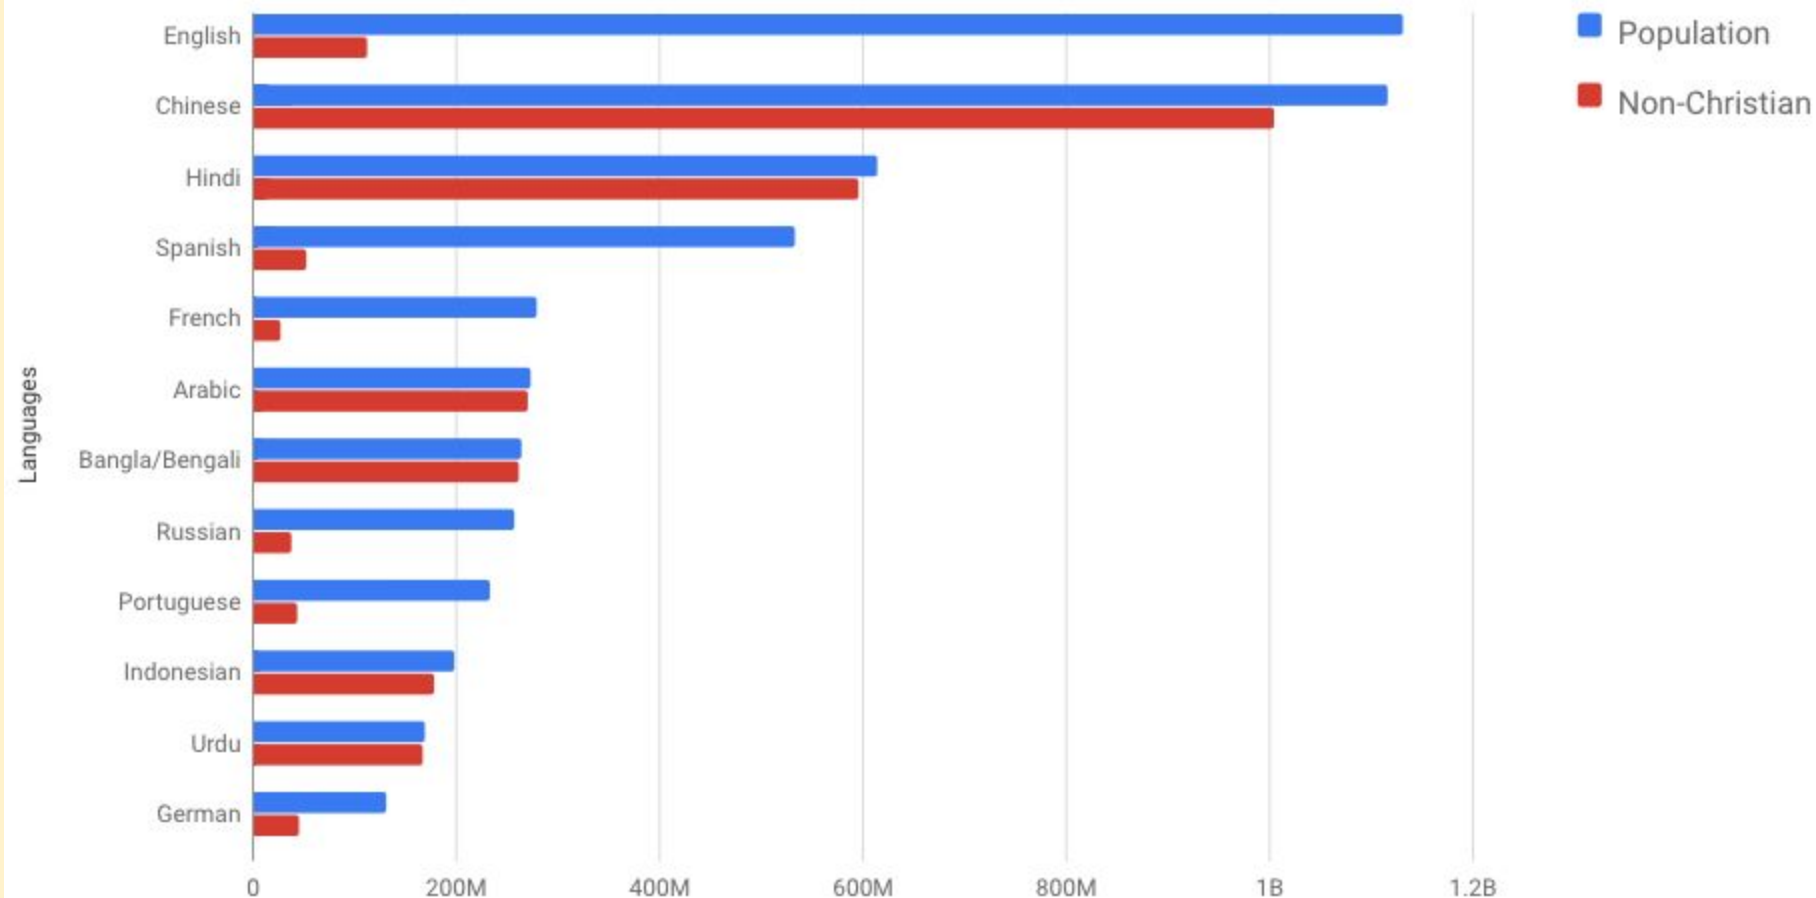

- What do the pictograms and logograms means? What's their relationship? How are the characters abstracted from pictures? Why is it abstracted this way not other ways? What do the logos means? What's the central meaning of OBI? Why can they exist until today? Why can they last so long?
- Why was OBI developed in a small area in short period of time and disappeared in history until 1898? Why no evolution evidence, historical records, legends?
- Who invented it (single, team, ethnic, history)? Where did they come from? what's their purpose? (pyromancy?) What's their driven power? What's their worldview? How did they invent? How long did they spend?
- For more than 100 years after discovery of OBI, social scientists has failed to answer these questions. Many desire to satisfy their curiosity. (A org in Henan province offered a hefty reward in 2017)
- Rulers control the unearthed material that influence Chinese people's mind. OBI was the core of Chinese archeology.

Why to study OBI?

2. Missionary Need

- OBI based languages (Chinese, Japanese) cover the largest ethnic group in population in the world, which is the strongest religious language in the world, also the most stronghold against Gospel today and in past history. (E.g. Article)
- OBI was one of the most famous mysteries in the world. Satan hijack OBI to make it mystery to seduce its people to love it to glorify it to be proud of it to develop it to resist the truth. As Chinese is expanding in the world, its mystery is also influencing the Christandom.
- It is Christian's duty to demystify OBI to unveil the truth and liars in OBI to dismantle the evil power to liberate its people from the fears and darkness. Christian should do not live in any worldly mystery but live in truth. Worldly mysteries are liars. Nothing in the world is mysterious for Christians except the secret of the kingdom of Heaven.
- Mysteries help idolary to a person to a group to a culture. Demystification can help to destroy idolary.

Language and Religions

Why to study OBI?

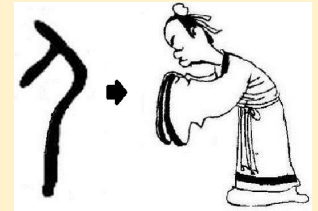

3. OBI is a spiritual battleground

- OBI is hijacked by a small group to be used as a tool ruling majority of the people. No authentic information can be reached in public freely.
- OBI research information are twisted to deceives people from the truth.(unless one can decipher it, it always show the power of evil)
Misleading and false interpretation are everywhere in the world.

Disinformation

1. OBI is used in pyromantic divination for superstitious practice. [wiki]
Used for worship/pray for the dead.
2. OBI is the earliest known form of Chinese writing.[wiki]
OBI was not a human language but a tool for a religious practice.
Its influence to by-produce Chinese, Japanese, Korea.
3. The character Hao. misinterpretation. ([refer](#))
4. OBI is abstracted from picture as (Pictography + logograph):
Designer and users are different groups and cultures and worldview..

Possibility/Feasibility to Demystify OBI

"What has been made, the same continues. What is in the future, has already existed. And God restores what has passed away." (Ecc3:15 CPDV)

Possibility/Feasibility to Demystify OBI

"For I tell you the truth, *many prophets and righteous* men longed to see what you see but did not see it, and to hear what you hear but did not hear it." (Mat13:17 NIV)

Where are we right now?

Milestones of OBI Study

1898 : First discovered by Wang Yi-Rong

1903 : First book about OBI study (50 characters identified)

1906 : First book in the western by Frank H. Chalfant (403 chars)

1914 : The term OBI coined by Samuel Couling. JiaGuWen in 1923.

1929 : Total of 957 characters are identified and released.

1950 : First discovery of connection with Bible by KT.Kang missionary

1979 : *The discovery of Genesis* published by Ethel Nelson

Past VIP in OBI Study

Wang Yirong (1845–1900) Chinese politician and scholar, was the first to recognize the oracle bone inscriptions as ancient writing.

Liu E (1857 - 1909) examined the dragon's bones with him. They were both interested in palaeography (the study of ancient writing) and noticed that these bones seemed to be covered in ancient Chinese script.

Luo Zhenyu (1866-1940). In 1908 CE, the scholar and philologist finally found that the bones came from an area outside the city of Anyang. He traveled there and found thousands of bones with inscriptions carved and painted on them.

My Background on OBI Study

1995: came to Atlanta from China as an atheist mixed with Buddhism, Daoism, Confucius and superstitions.

1998-2000: lived in Pleasant Hill Road. Sent my son to Chinese School in Perimeter Church buildings. While waiting for son's class, Don, a bible study teacher, introduced me the book The Discovery of Genesis in Chinese Character. It's the first time for me (atheist) to think in my life if God is true.

2003: was baptized at ACCC church. As I grew in Jesus, the issue of OBI is in my mind all the time.

2016: Finished the OBI study with all my spare time, go to CIU Theology and Inter-culture study.

2021: met Charles De Andrade to begin the book writing.

Work-1 : focus on the system

1. The OBI is a relational characters system. Each character is not isolated, or created independently from nature. Every character is created based upon other characters. The meaning of each character can inherit its parent character. The most fundamental root character is horizontal dash one (-).The complicated OBI system was carefully designed, planed and rectified before practice rather than naturally evolved randomly or selectively through various types of trials and agreements from different parties. The error in OBI is extremely rare. (about 1 or 2 case).

- consolidation
- classification (general, specific)
- freq (literal and structural)
- visual display
- topics study. (visual thinking in worldview)

8	Pre-existed handbook	254-309	55	18%

Work-2: focus on the pre-existed handbook

- 1.
2. OBI contains a pre-existed book that can be restored from OBI. Its evidence is Dian. It is the article of the cooperation, the highest and perfect institute of the writing system. It is the key to decode OBI.

The basic study method is to combine the study of system of characters and the study of the pre-existed handbook.

The designer and users belong to two different groups and cultures. The purpose of the handbook and the purpose of OBI are different.

Work-3: focus on the topic

- 1.
- 2.
3. Find out the literal topic of OBI system: (context)
Find out the structural topic of OBI system: (Subcontext)
Find out the topic of pre-existed handbook: ()
About the differences in topic.

1. In part I of the book, The number seven is the cross. It indicated the meaning of seven, the seventh day of the creation, the Sabbath day is about the cross. On the other hand, the meaning of cross, referring Jesus as goatscape on cross, is to what people need to worship in the seventh day. It is the only document in the world to clearly demonstrate that the cross, the seven, the Sabbath, Jesus are identical in meaning.
2. In part II of the book, cross means the first in the heaven-stems.
3. The spiritual war about the cross and seven in OBI.
4. The types of cross in OBI are most abundant.
5. The children of cross are the most in OBI.
6. Cross is the root of son and god.
7. The tomb structure show cross form in China.
8. The cross for tomb in middle east.
9. Conclusion: Before Jesus, the symbol cross is to predict Jesus.

Work-4: focus on the themes

1. -
2. -
3. -
4. The central theme of all pictograms in OBI is about man. All characters are created to related directly or indirectly to serve to the man. There sre many types of man, man, son, woman, king, servant.

All animals, weapons, houses etc are served for man. The broad relational system has a central topic to serve for a central purpose. Overall, the writing system eventually demonstrates the themes about the cross, son, man, and god and one virgin woman, and all other characters animals, buildings, weapons and so on serve for these central themes. The purpose of themes is to point to the one with his authority, mighty and holiness, sacrifice, righteousness, born from a virgin, who has to be the only one the advent Jesus,

1. There exist systematic design for all OBI. There is a central theme, central topic, central purpose for all characters. All characters express a central idea. Each character is not isolated, or created independently from nature. (Creation theory vs evolution theory) All image abstraction and logo symbols serve one central purpose. All characters creation serve one purpose. Overall, theme of writing system is visually about the cross, son, man, and god and one virgin woman, and all other characters animals, buildings serve for these.
- 2.
3. OBI system is developed based on the design doc to predict Jesus and virgin Mary.
4. horizontal line based writing system.
5. image direction face toward up for heaven. Worship heaven.
6. cross centered writing logograms.
- 7.

Conclusion

1. OBI literal topics show that OBI is used for the grave ceremony in religious rituals.
2. OBI structural freq show the topic is about the predicted account.
3. OBI pre-existed handbook is about a book how to predict the savior of God.
4. OBI themes :
 - cross
 - persons (servant, son, man, woman)
 - ritual materials(churches, weapons, utensils, animals)
 - worldview (natural, body)

Some Benefits of the Research

1. Satisfy the curious people from being puzzled/attracted. (A org in Henan province offered a hefty reward in 2017)
People are easy to be obsessed by OBI. The research can help to liberate its people to exodus and turn to the truth.
2. A lesson for Chistians to prevent from being perverted: How a pro-Christian (OBI) culture became an anti-Christianity culture. (culture depravity vs person depravity)
3. Make use of it as materials for preach.
4. Make uses of it as a tool to communicate among Chrisians.
5. Make uses of it as icons, signs in the modern world for public sign, like computer icons, street sign. (Xing 行)
6. By overcoming the slowest writing through computer, OBI is likely a fastest reading language (OBI, not morden chinese chars) freely used by the world, to spread to the end of the earth. (language affects human cognition, which affects worldview. ([utube](#)))

Some Concerns

1. Intellectual property. (Many pictures used are intellectual property protected.)
2. Authorship issues: a group from multi-cultures.
3. Financial issues.
4. Salesman hiring.
5. Technology application,
6. Government controlled data access.
